

AHC30921

Certificate III in Landscape Construction

COURSE INFORMATION

Kickstart your career in landscaping. Practical skills, hands on experience and varied projects lie ahead.

This course will give you the practical skills to construct landscaping projects and renew and maintain existing gardens.

You'll develop the knowledge required to install drainage, construct brick, block and concrete structures and provide information on plants.

Successful completion of this course will qualify you to work as a landscape gardener, or parks and gardens tradesperson.

Apprenticeships combine work with training in a nationally recognised qualification. You will be provided with practical training via hands on work with your chosen employer with a diverse range of projects, tasks, and equipment.

Our highly experienced staff are still strongly embedded in the industry and will give you the one-on-one guidance you need to succeed.

If you want a course that will provide you the best start to your career, this qualification may be for you!

DURATION

3 years full-time | 6 years part-time

START DATE: Anytime

Blended Learning

This qualification is delivered online via our online learning system, in addition to work based-learning.

Students require access to a computer, the internet, Microsoft Office or similar program and also to download Microsoft Teams (free app).
