

COURSE INFORMATION

AHC30716 Certificate III in Horticulture

Get started on your career in horticulture!

Build a strong foundation of horticulture knowledge while gaining the specialist skills to work in large open spaces, like parklands or sporting fields.

With this course you will gain horticulture skills in plant identification and plant care, landscape management, propagating, planting, pruning, fertilising, controlling weeds and maintaining gardens and nurseries.

Successful completion of this course will qualify you for employment as a horticulturist, in a nursery or in parks and gardens.

If you want a course that will assist you in furthering your career, with supportive training, this qualification may be for you!

This course allows you to specialise in open space management, it broadens your employment opportunities to include larger organisations, like governments and local councils.

Our highly experienced trainers provide guidance and support every step of the way, to ensure you have the knowledge and practical skills you need to work in this field.
